Portfolio Composition	% of Total Investments
Common Stock - US	82.10%
Common Stock - Foreign	14.17%
Limited Partnerships	0.00%
Short Term Security	3.73%
<b>Total Portfolio</b>	<b>100.00%</b>

\*\* The Distribution rate calculation is based on the most current dividend rate per share of \$0.19 annualized and divided by the 12/31/2021 market price of \$35.12. The fixed monthly amount distributed per share is subject to change at the discretion of the Fund's Board of Trustees. Sources of distributions to shareholders may include net investment income, net realized short-term capital gains, net realized long-term capital gains and return of capital. Based on current estimates, we anticipate the current distribution has been paid from a return of capital. The actual amounts and sources of the amounts for tax reporting purposes will depend upon the Fund's investment experience during the remainder of its fiscal year and may be subject to changes based on tax regulations. If a distribution includes anything other than net investment income, the fund provides a Section 19(a) notice of the best estimate of its distribution sources at that time, available at [www.utilityincomefund.com](http://www.utilityincomefund.com). These estimates may not match the final tax characterization (for the full year's distributions) contained in shareholders' 1099-DIV forms after the end of the year. Distribution payments are not guaranteed and dividend rates can vary.

The net asset value (NAV) of a closed-end fund is the market value of the underlying investments (i.e., stocks and bonds) in the Fund's portfolio, minus liabilities, divided by the total number of Fund shares outstanding. However, the Fund also has a market price, the value at which it trades on an exchange. If the market price is above the NAV the Fund is trading at a premium. If the market price is below the NAV the Fund is trading at a discount.

# REAVES UTILITY INCOME FUND (UTG)

Fund Update  
**12.31.21**

## Portfolio Objective

The investment objective of the Fund is to provide a high level of after-tax total return consisting primarily of tax-advantaged dividend income and capital appreciation. It intends to invest at least 80% of its total assets in dividend-paying common and preferred stocks and debt instruments of companies within the utility industry. Up to 20% of the Fund may be invested in the securities of other industries. See the Portfolio Composition for details.

[www.utilityincomefund.com](http://www.utilityincomefund.com)

*This fact sheet is provided for informational purposes only and is not an offer to purchase or sell shares. The Reaves Utility Income Fund is a closed-end fund, which is traded on the New York Stock Exchange.*

*An investor should consider investment objectives, risks, charges and expenses carefully before investing. To obtain a annual report or semi-annual report which contains this and other information visit [www.utilityincomefund.com](http://www.utilityincomefund.com) or call 1-800-644-5571. Read them carefully before investing.*

## Performance

Total Return	NAV	Market Price
Year-to-Date	13.30%	14.48%
1 Year	13.30%	14.48%
5 Year <sup>^</sup>	8.35%	9.54%
Since Inception (2/24/2004) <sup>^</sup>	10.93%	10.71%

<sup>^</sup> Annualized

## \$10,000 Hypothetical Investment (as of 12.31.21)\*

\* Investment Values based on NAV.

*The Performance data quoted represents past performance and reflects the deduction of applicable expenses.*

*Past performance does not guarantee future results and current performance may be lower or higher than the performance quoted.*

*The hypothetical example does not represent the returns of any particular investment. Returns for periods of less than one year are not annualized and therefore reflect cumulative returns. For purposes of performance calculations, all dividends and distributions are assumed to be reinvested, using either NAV or market prices, both of which were obtained under the Fund's dividend reinvestment plan. Hypothetical investment values are based on performance of the Fund's NAV and values at each period end are shown, since the Fund's inception.*

*RISKS: The Fund may have elements of risk, including the risk of loss of equity. There is no assurance that the investment process will consistently lead to successful results. An investment concentrated in sectors and industries may involve greater risk and volatility than a more diversified investment.*

ALPS Portfolio Solutions Distributors, Inc. FINRA Member Firm.
